
Clinical Research Coordinators

- [Suggested Training for Clinical Research Coordinators](#)
- [Course Descriptions and Training Checklist](#)
- [Tools and Related Guidance](#)

This educational resource is designed for both new and experienced Clinical Research Coordinators, and other clinical research staff at UCLA who are seeking training resources, including written material, classes and computer based learning modules.

Clinical Research Coordinators (CRCs) are responsible for the organization, coordination, and overall integrity of a research project with humans. Principal and co-investigators provide the overall direction in a clinical study, but CRCs have significant roles in clinical study activities, including **Clinical Trial Study Start-Up**.

Human Research Protection Training

[Human Research Protection Training](#) Note: These modules can take several days to complete.

Good Clinical Practice (GCP) Basics

[Good Clinical Practice \(GCP\) Information](#): The CITI Good Clinical Practice (GCP) Basic Course is an overview of GCP. Some units on campus require this course, but it is optional for the OHRPP. Be sure to check with your departmental GCP training requirements.

WebIRB

[WebIRB](#) is the IRBs online submission and review system for research studies. The system also functions as a document repository, providing study personnel with easy access to study documents like approved consent forms. This module takes about 30 minutes to complete.

Clinical Research Coordinator's Group

Clinical Research Coordinators Group; If you are interested in participating in a Professional Development and Best Practices Group for Clinical Research Coordinators, please contact ResearchGo.

CareConnect

[CareConnect](#) training for Clinical Coordinators These modules take about 7 hours according to the APEX training staff.

OnCore Training?

- For system security and compliance, training is required [for access to OnCore](#). Registration for online and in-person trainings is available through the [CareConnect Training Management System](#)

- To request an account and view training requirements for the different levels of access, view the research recommended training section available from the [UCLA CareConnect website](#)
- For training questions, contact crishelp@mednet.ucla.edu or call 310-267-2273.
- [Please visit ResearchGo for more information](#)

Data Management Tools

[Data Management Tools](#) available online include RedCap, and the Cohort Selection Tool. REDCap is a secure, web-based application for building and managing online surveys and databases.

[New Research Coordinator Training Checklist](#)

[Principles of Good Clinical Practice \(GCP\)](#)

Overview of the regulations that guide human subject research and what are those responsibilities.

[Study Start Up](#)

Best practice considerations when opening a new study to avoid management problems

[Recruitment](#)

Review of FDA and IRB guidance on recruiting subjects for research.

Informed Consent

- [Part 1 - Overview of Belmont Report](#)
- [Part 2 - Methods for consent compliance when enrolling subjects](#)

[Documentation](#)

Discuss paper and electronic copies and the importance of investigator and coordinator documentation effecting audit outcomes

[Safety of the Subject – Definitions](#)

Defining the terminology needed for Adverse event documentation

[Reporting Adverse Events](#)

Overview of timeliness for reporting and which agencies are involved.

[Sponsor Responsibilities](#)

Describes how sponsor monitoring is regulated for quality control and quality assurance of both investigative sites whether industry or sponsor- investigator studies

[Preparing for an Inspection](#)

Steps to prepare for and participate in external audits and what comprises audit readiness
