New Investigators at UCLA

UCLA is committed to supporting the research efforts of the UCLA investigator community through various training efforts. This section contains information on recommended and required trainings for new and experienced researchers.

We recommend that Investigators who are new to UCLA visit the following links for general institutional training guidance.

- Recommended Training-UCLA training resources for investigators
- CTSI New Investigator Programs-CTSI new investigator programs
- UCLA Environmental Health & Safety Training Schedule-Safety training requirements for research
- Responsible Conduct of Research (RCR)-Training and information
