Study Closeout Checklist

There are many aspects to closing out a study. Please see the resources below for tools and guidance.

- CTSI Study Closure Resources - Information includes Roles and Responsibilities, Document Management, Media Outreach, NIH Public Access Policy, PubMed Central and PMCID.
- IRB Guidance and Procedure: Closure of Human Subjects Research Studies
- National Institute of Dental and Craniofacial Research (NIDCR) - Study Tool: Study Close-out Checklist This document helps the investigator plan orderly closure of study documents, data, and publication.
- To close-out out a study on ClinicalTrials.Gov, please contact Elaine Cooperstein.
- Record Retention Guidelines
