
Study Closeout Checklist

There are many aspects to closing out a study. Please see the resources below for tools and guidance.

- [CTSI Study Closure Resources](#) - Information includes Roles and Responsibilities, Document Management, Media Outreach, NIH Public Access Policy, PubMed Central and PMCID.
- [IRB Guidance and Procedure: Closure of Human Subjects Research Studies](#)
- [National Institute of Dental and Craniofacial Research](#) (NIDCR) - Study Tool: [Study Close-out Checklist](#) This document helps the investigator plan orderly closure of study documents, data, and publication.
- To close-out a study on ClinicalTrials.gov, please contact [Elaine Cooperstein](#).
- [Record Retention Guidelines](#)
