

## Overview

Responsibility for handling agreements related to sponsored research and other sponsored project activities is distributed across various UCLA administrative offices based on the sponsor and the nature of the transaction. In some cases, multiple offices may share responsibility for different aspects of the negotiation and administration of the transaction/agreement.

There are 3 offices on campus that support investigators with their clinical research awards.

1. [The Clinical Trials Contracts and Strategic Relations \(CTC and SR\)](#) team works with for-profit pharmaceutical, biomedical and medical device manufactures as well as contract research organizations (“CRO”) to negotiate agreements such as confidentiality agreements related to clinical trials (“CDA”) and clinical trial agreements (“CTA”) for industry supported drug, biological and medical device trials, and is the authorized institutional signatory for these agreements. In addition, CTC&SR negotiates CDAs and CTAs with non-profits that flow through Industry funding. For questions or assistance, please contact [Clinical Trials Contracts & Strategic Relations](#). For more information, please see the [Clinical Trial Contract Checklist](#).
2. The [Office of Contracts and Grants Administration](#) facilitates government and non-profit funding awards. For questions or assistance, please contact Patti Manheim, Director, Office of Contract and Grant Administration at (310) 794-2644.
3. [UCLA Technology Development Group \(TDG\)](#) assists with industry supported basic and applied research, including material transfer agreements (MTAs). For questions or assistance, please contact Brian Roe, Director, Industry Research & Material Transfer at (310) 983-3408.
